Are you currently living and working in the UK?

YES

UKPHR
Public Health Register
Protecting the public | improving practice

NO

Please note that to apply for UKPHR Public Health Practitioner registration you will be required to be living and working in the UK to join a local scheme to register via the retrospective portfolio route or to apply to complete and register via the public health apprenticeship route.

To apply for UKPHR Public Health Specialist registration via the training route, you must be either participating in the UK public health specialty training programme or have experience of working in a UK public health context to demonstrate your competence against UK specific competencies for the Specialist Registration by Portfolio Assessment route (SRbPA).

If you are currently based overseas but have experience of working as a senior public health professional within the UK, you are welcome to submit a Specialist Registration by Portfolio Assessment pre-application in accordance with the preapplication guidance (see paragraph 2 on page 2 and appendix) .

Before proceeding to submit a pre-application, please ensure that you are familiar with the requirements of maintaining your registration as a public health specialist, which will apply if you remain overseas.
